

Kamal Khanal — Full Stack Web Developer (React / Next.js)

☎ 0415 837 036 | ✉ kamalkhanal@gmail.com | 🌐 kamalkhanal.com
🔗 [LinkedIn](#) | [GitHub](#)

Summary

Full-stack web developer with a strong frontend focus and a passion for building performant, modern web applications. I specialize in **React**, **Next.js**, **Supabase**, and **Stripe integrations** — with a proven ability to deliver complete SaaS products from concept to launch. I bring experience in both freelance and startup environments, building user-focused UIs and scalable backend systems.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, SQL

Frontend: React, Next.js, Tailwind CSS, Shadcn/ui

Backend: Node.js, Supabase, PostgreSQL, Prisma, REST APIs

Tools: GitHub, Vercel, Netlify, Figma, REST APIs, VS Code

Other: SEO, WordPress (Elementor, WooCommerce), Shopify, Agile Development

Experience

Freelance Full-Stack Developer

JustWork – Freelance Marketplace | justwork.com.au

Jan 2024 – Present

- Providing freelance development services through JustWork, a self-hosted freelance job platform.
- Built MVP using **Next.js API routes**, **PostgreSQL**, and **Prisma**, hosted on **Vercel**.
- Implemented user auth with **NextAuth.js**, role-based dashboards, job postings, applications, and messaging.
- Designed frontend UI with **Tailwind CSS** and built modular backend API features for job and user management.

Web Developer / SEO Specialist

Show Tile – Bankstown, NSW

Jun 2023 – Mar 2024

- Rebuilt the company e-commerce store using a React frontend and WordPress API backend.
- Improved site SEO by optimizing metadata, improving site speed, and enhancing mobile responsiveness.
- Implemented SEO best practices resulting in increased organic traffic and higher search engine rankings.
- Automated inventory syncing and reduced bounce rate by 35% through UX improvements and faster load times.

Freelance Full-Stack Developer

SiteGuru – Sydney / Remote

2019 – 2023

- Delivered custom websites, SEO optimization, and automation for small businesses.
 - Built marketing pages, e-commerce solutions, and dashboards using WordPress, WooCommerce, and Elementor.
 - Managed Google Ads campaigns, analytics reporting, and A/B testing.
-

Projects

JustWork – Freelance Marketplace MVP

- A platform where clients post jobs and freelancers apply, message, and manage work.
- Stack: **Next.js API routes, NextAuth.js, PostgreSQL, Prisma, Tailwind CSS**
- Features include job posting, role-based dashboards, messaging, and application tracking.
 In Development: justwork.com.au

VideoBite – Faceless Video Creator using AI (In Progress)

- AI-powered tool to create YouTube shorts, reels, and other faceless videos using AI-generated scripts, voiceovers, and automated editing.
- Integrates **OpenAI API** for scriptwriting, **Text-to-Speech** engines for voice generation, and **FFmpeg** for video compilation.

- Designed to help content creators produce scalable video content without appearing on camera.

Kamal AI – AI Blog Generator

- Generates SEO-optimized blog articles from prompts using **OpenAI API**.
- Built with **React**, **Supabase**, and **Tailwind CSS**.
 Demo: kamal.cc

InvoicePro – Freelancer Invoicing SaaS

- Full-stack invoicing app with PDF generation, client/project tracking, and Stripe integration.
- Stack: **Next.js**, **Prisma**, **PostgreSQL**, **Stripe**, **Tailwind CSS**

NextStore – Headless E-commerce Storefront

- Modern e-commerce storefront with custom cart, checkout, and CMS integration.
- Stack: **Next.js**, **Tailwind CSS**, headless CMS (Sanity/Strapi)
 Demo: nextstore.com.au
